Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Prelim./Amdt.

1. Receipt is acknowledged of the amendment filed 08/16/2005.
2. Claims 1-16 are pending.

Allowable Subject Matter

3. The indicated allowability of claims 9-15 is withdrawn in view of the newly discovered reference(s) to B.W. King (US 1,556,510) and Sandberg (US 6,604,837 B2). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 4-14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by B. W. King (US 1,556,510).
6. Re claims 1, 8, and 16: B.W. King discloses the claimed illuminating magnifying device (Fig. 1) comprising a housing (1 in Fig. 2) including a battery and a fastener (16 Fig. 4) adapted to attach the illuminating magnifying device to an article other than the illuminating magnifying device; a magnifier (8) attached to the housing (1); and an illuminator (2) attached to the housing (1) adapted to illuminate an area adjacent to the illuminating magnifying device.
Re claim 4: B.W. King discloses a hinge (5) which attaches the magnifier (8) to the housing (1).

Art Unit: 2875

Re claims 5-7: B.W. King discloses that the magnifier (8) may be positioned in an up position and in a down position by the hinge (5) such that the latitudinal axis of the magnifier(8) can be substantially parallel or perpendicular to the longitudinal axis of the housing (1).

Re claims 9-14: B.W. King discloses a method for viewing an object to a person, comprising the steps as set forth in the claims 9-14.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 2-3 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over B.W. King as applied to claims 1 and 14 above, and further in view of Sandberg (US 6,640,837 B2).

Re claims 2-3 and 15: B.W. King does not teach that the fastener is a clip for fastening the device to a bill of the headwear. However, Sandberg discloses that a flashlight device is attached to a bill of the cap by a clip (12). It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute Sandberg's clip with King's fastener in order to attach the device to a bill of a cap.
